

## Those Jones Girls - Sabrina

Overworked, underpaid restaurant manager, Sabrina Jones has the worse luck with men. When her grandfather asks her and her sisters to return to Miami to deal with urgent family matters, she is grateful for the break. After the last man she dated dumped her via text for failing to commit, she's beginning to think her family may be right. Maybe she is damaged from the things she saw and experienced as a young girl. But if facing her biological parent and rehashing their past is the only cure, she wants no part of it. Jamaican, auto-mechanic Jamison Volks owns two successful shops, a nice home in a gated community, and taking care of his son is one of his top priorities. But there is no one special to share his success with, and for years, that was just fine with him. However, when the mother of his son attacks him, he realizes he needs a strong woman who can have his back in any kind of fight to gain custody of his son. Two virgins, when it comes to relationships, must decide if they are strong enough to withstand the winds of change that is blowing in both of their lives. Lies and secrets have been twin pillars in Sabrina's life since childhood. Forced to face her past, will Jamison understand her actions, and be a part of her future?
