

The Professional Way to Make Perfume Second Edition

With the perfume making techniques and procedures detailed in this guide, you will have all the tools you need to make your own best selling scent. Imagine having the power to create a unique signature scent without spending millions of dollars in research and development like large perfume companies. There are thousands of different essential oils and aroma chemicals available on the open market. There are a countless number of combinations waiting to be unlocked. My guide has easy to follow instructions, clear illustrations, seven of my signature formulas and a list of my material suppliers. Everything needed to start on your path as a perfumer can be found in these pages. Good luck!
