

February and the Single Heart: A tale of deception and two lost hearts

HOW LONG BEFORE REKINDLED LOVE BURNS AGAIN? Heiress and teen genius, Mary Jo Miller, is involved in a kidnapping mystery at fifteen and rescued by a reluctant hero. But after her fathers death and a series of calamitous events, Mary Jo is on the streets and must use her brains and savvy just to survive. Eight years later, she finds herself as the primary suspect in an ingenious art theft and, once again, her hero from before must save her. Holding on to her lucky coin and hoping for another happy ending, she soon realizes that all things change and the young man she is falling for may not be her rescuer after all. Vi Zetterwalls Single Heart series explores the very nature of a woman and a mans relationship. Each book is a stand-alone storya short novel that pays homage to the verbal foreplay that goes on early in a relationship. Vis novels feature unique characters facing everyday problemsand sometimes, not-so-everyday. Although the characters and plotlines are all different, there is a connecting thread: In each book, the leading lady comes into possession of the Coin of Luck in Life and Love. In ways, sometimes small, sometimes great, the coin affects her actions and all subsequent events. In your life, you have probably experienced an event that seemed inconsequential at the time but had far-reaching results. Vis books explore the magic that occurs when serendipity strikes and some chance meeting, a leap to conclusions, an unexpected twist, or a last chance long-shot leads to two people finding each other and falling in love. Vi writes about relationships and the drama that comes from every conversation. The steam that rises from her books is not due to an abundance of love scenes. You wont see many phrases discussing the male anatomy or torrid moments in the bedroom. But you will feel your blood pressure rise during the dialogue-heavy scenes between

potential lovers in a dangerous romance. Your heart will ache when the leading lady does and you will gain the same insights about life and love that she has. Follow the travels of one coin and the lives it touches. As each book concludes, the protagonist passes on the Coin of Luck to another random womansort of a sneak preview to the next tale in the series. And everything seems to change after that. Is the coin magic or is it merely a catalyst that pushes love in the right direction? Every reader will have to decide for themselves. Vi Zetterwall weaves feel-good stories of love, suspense, mystery, and always a twist or two at the end. She loves a happy ending and never fails to deliver.
