

Stay In The Magic: A Voyage Into The Beauty Of The Grand Canyon

Really big adventures usually start in really small ways, for author John Wise, it likely started at age 5. It was back then, during a stop in the Painted Desert on a cross-country trip, that a love of travel and exploration all began. On that day, his family got out of the car, not believing how incredible the desert looked. Could it be that the enthusiasm demonstrated by adults before a child is the spark that ignites the curiosity in a young imagination? Forty-two years later, the eyes of that boy set their sights onto the Colorado River and all of the magic, imagination, and curiosity came racing right back into the mind of the child, who was now a man, about to re-experience a kind of excitement nearly lost over time. This book is a reminder to not let go of the truly important things in life; love, a sense of adventure, our freedom, and our knowledge that we have the potential to create a present and a future that exceeds our wildest dreams. As you sit around the campfire of life exploring its bigger stories: Always remember to stay in the magic of a wonderful life, never stop following the trails of your imagination, and strive to find the journeys that will bring you and your loved ones into the beauty of it all.
