

## The Way to Tahiti (Russian Edition)

This is a continuation of the novel Lulu devoted to the dashing nineties in Russia. Tahiti is a dream, a symbol of prosperity and wealth. Only the man of means is able to afford a trip to Tahiti. Hopes for implementation of this dream appeared at the beginning of the next decade. As a result the main character of the novel, it seems, received everything that wanted: it has a decent income, he became the popular writer and has success in beautiful women. But there are certain events, and it appeared that all not so. External gilding disappeared and the unattractive reality opened. In the most important, that makes a basis of happy and respectable life, modern times werent better than the 90th at all.
