

# Take My Advice

What if the answers to life aren't always black and white? Jill Reed thinks she knows it all, and as the advice columnist for her high school newspaper, she gets to share her wisdom on a weekly basis. She handles questions about everything from dating to choosing the right nail polish, and with the exception of a few bullies, everyone respects her opinion. But when life throws her some curves she can't handle, she realizes she knows a whole lot less than she thought she did, and she'll need to ask others for their advice so she can make it through.
