Each volume consists of six regular episodes, and a Finale that is three times the length (and price) of a single episode, told from the perspective of all six kids. ??? An excellent beginning to this fantasy adventure. I look forward to reading more of this series. Ray Alan Nicholson, book reviewer, on Midrealm ??? Well written, interesting characters, promising premise. Eric Guindon, The Siege Perilous Podcast ??? Its clear the writers put a lot of effort into developing each personality early on. The story line is still gripping. It moves, but it doesnt move so fast that you feel its unrealistic...Needless to say, Im a fan. On to the next one.
