

The Complete Works of Lyof N. Tolstoi: War and Peace (Classic Reprint)

Excerpt from The Complete Works of Lyof N. Tolstoi: War and Peace Men occasionally appear who by the force of their personality challenge the attention of mankind. Their message may not be altogether welcome, but we listen to it perforce. We may not accept it, but we become conscious that it is affecting the thought of our time, and unconsciously, perhaps, is changing our own lives. Such a man is Count Lyof Nikolayevitch Tolstoi. Few have seen more widely contrasting phases of life, have experienced a more inclusive experience of the whole gamut of human life and passion. Born into the higher circle of the Russian aristocracy, serving in the army of the Caucasus and during the Crimean war, received into the intimacy of the best writers of his day, he has gradually worked his way up to the loftiest plane of ethical Christianity, and now, repudiating the form of his former literary activity, he preaches a doctrine of equal labor for all men, of non-resistance no matter what the provocation may be, and of a literal acceptance of the words of Christ regarding most of the points of Christian profession and practice. Striking out from the highway of Fame and Success, he seems to be the personification of Russias traditional peasant-hermit who lives in the forest and turns the leaves of the golden book, and with infallible instinct answers even the most difficult questions that are propounded to him.
