Book One: *Stewards of the Flame* When burned-out starship captain Jesse Sanders is seized by a dictatorial medical regime and detained on the colony planet Undine, he has no idea that he is about to be plunged into a bewildering new life that will involve ordeals and joys beyond anything he has ever imagined, as well as the love of a woman with powers that seem superhuman. Still less does he suspect that he must soon take responsibility for the lives of people he has come to care about and the preservation of their hopes for the future of humankind.

Book Two: *Promise of the Flame* Three hundred people, isolated on a raw new planet in the hope of fulfilling a dream, the dream that their psi powers will become the foundation of a culture that can someday shape the future of humankind. If they don't starve first. If they don't lose heart in the face of hardships beyond any they imagined. And if their kids can be reared to believe in the dream and advance both their technology and their psi powers from one generation to the next.
