

# ICON

When the worst economic downturn since the Great Depression plunges America into despair, a previously little-known but charmingly charismatic politician rides into the White House on a mantra of Expectation and Transformation. What will be the ultimate price to be paid for massive government bail-out programs and an ever increasing level of government intrusion into American lives? As Biblical prophecy unfolds, nationally-syndicated radio host and political commentator Tom Beckett senses that all is not as it seems; that the story behind the story is much more complex than most Americans imagine. But even he is not prepared for the sinister forces he encounters in the world of ICON. His life, his family, his nation and the world stand on the brink of the abyss. Join Bodie and Brock Thoené in the unfolding serialization of their new, contemporary political-thriller ICON, downloadable SOON to a computer near you!
