

The Interrogator

A war is fought on many fronts... Spring, 1941. Hitler's submarines, his grey wolves, prey on the Atlantic convoys that are the country's only lifeline. Lieutenant Douglas Lindsay is amongst just a handful of men picked up when his ship is torpedoed, and he becomes an interrogator with Naval Intelligence, questioning captured U-boat crews. He is convinced that the Germans have broken British naval codes, but he's a lone voice. No one will believe him, not even his lover, Mary Henderson, who works at the very heart of the intelligence establishment, so he sets a trap for his prize captive, U-boat commander Jurgen Mohr, the man who sent his ship to its doom.
