*This Book is annotated (it contains a detailed biography of the author). *An active Table of Contents has been added by the publisher for a better customer experience. *This book has been checked and corrected for spelling errors. The Napoleon of Notting Hill is a novel written by G. K. Chesterton in 1904, set in a nearly unchanged London in 1984. Although the novel is set in the future, it is, in effect, set in an alternative reality of Chestertons own period, with no advances in technology or changes in the class system or attitudes. It postulates an impersonal government, not described in any detail, but apparently content to operate through a figurehead king, randomly chosen.
