

Doctor Who: The NU-Humans

Raquel Cassidy reads this exclusive audio adventure featuring the Eleventh Doctor, Amy, and Rory. The Doctor, Amy, and Rory are awestruck by their first sight of Hope Eternal, a super-earth bigger than Earth itself with heavy gravity, volcanoes, and a crust loaded with mineral deposits. But their wonder is cut short when they discover a body dumped on the ground a huge figure with extraordinarily long arms covered in thick, purple scales. Yet the corpse is not alien: he's human, albeit unlike any human Amy and Rory have ever seen. The Nu-Humans have adapted their genes to fit their new environment and formed a thriving colony. But now they are facing a terrible threat. Can the Doctor find out who is killing Nu-Humans and why before he, Amy, and Rory are themselves tried for murder? Written specially for audio by Cavan Scott and Mark Wright, *The Nu-Humans* features the Doctor, Amy, and Rory as played by Matt Smith, Karen Gillan, and Arthur Darvill in the acclaimed hit series from BBC Television. It is read by Raquel Cassidy, who played Miranda Cleaves in the 2011 television episodes *The Rebel Flesh* and *The Almost People*.
