

Atskili: The Secret Paths of the Cherokee: Book One of the Qua Nie Saga

Modern Cherokees disavow the Nicotani secret order that practiced herbal lore and mystic sex in order to control the political and spiritual future of the People. They dispute and minimize all of the contemporary accounts of those practices. The Qua Nie Saga tells the story of a family descended from a Cherokee Chief, Moytoy, who attended the coronation of King George II, a Scottish trader and an Englishman who fought under Washington in the Revolutionary war. The projected scope includes four historical novels featuring Qua Nie Benjamin Franklin Goss Adair who moves from Cherokee warrior to frontier trader to mystic wanderer as he moves across the face of an expanding nation and a series of psychological detective novels featuring one of the contemporary descendants, Diamond Rising Star Adair. Atskili: The Secret Paths of the Cherokee Book One of the Qua Nie Sage The novel is the, mostly fictional, life of a Cherokee Indian mystic and man of action who was born in North Georgia in 1827 and died in Oklahoma in 1906. This novel begins in the year 1838 and closes in 1847 after his having survived the Trail of Tears and before he begins his Wander Years. Most of this story centers around his mother, Atskili, and her ancestors and their attempts to assimilate the European traditions in order to transcend them. It includes a mysterious, perhaps Belgian, perhaps Jesuit, who briefly creates an Empire for the Cherokees in the late 1730s. He relies on his own version of Free Masonry, Rosicrucianism and Tantric sex to hold this Empire together. This book is occasionally peopled by the Nunnehi, Cherokee version of the immortals, the little folk and the little water folk and their version of the mystical and magical.
