

The Red Hawk: Unabridged Edition

A Anti-Communist Science Fiction Classic by the creator of Tarzan. This is the last of a 3 part Dystopian trilogy of life in a socialist utopia. Book 1 - The Moon Maid, 2 is The Moon Men. Admiral Julian III knows his future: He will be reborn as his grandson in the 21st century & travel through space to make a startling discovery inside the moon. In the 22nd century, he will live again as Julian IX, refusing to submit to the victorious Moon Men. In the 25th century, as Julian XX, the fierce Red Hawk, he will lead humanity's final battle against the alien invaders. A majestic adventure with political overtones & great science fiction. Book 3: The American people are now a nomadic horse nation, painted and feathered. Their chieftain is Julian-the Red Hawk-and he is planning the final defeat of the hated Kalkans after centuries of oppression. This is ERG at his best, with all the excitement, adventure & thrills we expect. Exciting, thought provoking - Marxist domination - destroyed!
