

Montana Cherries (The Wildes of Birch Bay)

After her mother's tragic death, Dani Wilde had no choice but to abandon her dreams. She left Columbia University and returned to her family's Montana cherry farm, intent on being a maternal figure to her brothers. Now the kids are grown, and it's finally her time to fly. Her sights are on New York City, and nothing will stop her not even an old flame with gorgeous green eyes. Celebrity photographer Ben Denton hasn't seen Montana in years and hasn't spoken to Dani since that night so long ago. When he discovers he's a dad to a four-year-old and the child's mother refuses to care for her, Montana and the Wilde farm spring to mind. The orchard is the only place that's ever felt like home, but will the warmth of the Wilde family be enough to help Ben figure out how to be a father? As the Wilde family gathers for the yearly cherry harvest and Dani struggles to figure out what she really wants in life, she discovers the shocking truth about her own mother and learns that following her heart may lead her to her dreams after all.
