

Crazy Weather

Ursula K. Le Guin selected *Crazy Weather* for her contribution to Pharos Editions citing Charles McNichols' offhanded skill, the ease with which (he) takes us deep into a complex society and the complex minds and hearts of its people. In four days of glory-hunting with an Indian comrade, South Boy, who is white, realizes he must choose between two cultures. Le Guin explains how she finds *Crazy Weather* to be about a soul not at home and not at peace: South Boy, who on the verge of manhood is living in and between two worlds, without a clear way to go in either. *Crazy Weather* is a unique tale of American identity that serves as an important document in our cultural history.
