

Abraham Lincolns Lie

A note for conservative readers: Dont read this book. Its just going to make you mad, and I dont want to make you mad. Im a pretty nice guy. I just wanted to write a silly story to make my liberal friends laugh. The plot is outlandish, and its filled with exaggerated stereotypes and crazy descriptions of conservatives that have no basis in reality. It was not designed to be accurate or to be taken seriously. Lifes too short to get all worked up over this ridiculous book. If youre a conservative, I implore you to skip this and go read something youll actually like. Or turn on the TV and watch a rerun of Seinfeld. Everybody likes Seinfeld, right? From the author of the popular Dark Moonlighting series: Abraham Lincoln once said, A house divided against itself cannot stand. Senator Nick Bennett believes that it should not stand. Disgusted with partisan politics, Nick calls for America to be split up by political ideology. The idea of living in separate utopias is wildly popular with Americans. The blue states form the Progressive States of America and the red states create the United States of Ronald Reagan. The two new governments are free to address foreign relations, economic policies and social laws without the interference of an opposition party. While the P.S.A. thrives, the U.S.R.R. is crippled by the inanity of its conservative ideology. A generation of its citizens receives a terrible education and loses the right to privacy. Many are killed either by an abhorrent health care system or the preemptive wars their government starts. The dreadful conditions inside the U.S.R.R. enrage the conservative citizens. Revolution seems inevitable, and the conflict threatens to engulf the liberal country as well. Abraham Lincolns Lie contains political and social satire and is intended for a liberal audience. The novel takes a humorous look at how fiercely debated ideas could actually be

implemented by the two ideologies.
